Events 2023 Research Ethics in H...

About this event

This FDP (Faculty Development Programme) course, organised collaboratively by [Globethics South Asia Centre \(Bangalore\)](#) and Rani Anna Government College for Women, Tirunelveli, is an introduction to moral philosophy and is intended for the student who has had little or no prior exposure to the philosophy of morals and ethics. It will provide a broad but reasonably detailed examination of the central issues of moral philosophy and will also consider how these can be applied to teaching and research.

This FDP course, which is designed for faculty members, research scholars, and students of Masters programmes, has two main goals. First, students will learn about some of the most important theories and figures of moral philosophy in the hope that they can develop a clear understanding of the questions that recur in ethical debate, especially in teaching and research in higher education. Second, students will be encouraged to think about these questions (e.g., "what is morally right action?", "what are my duties to others?", "how important is moral disagreement?") so that they can put these into practise in their professional and personal life.

Introduction

- With the quickly changing employment landscape and global ecosystem, it is crucial that children not only learn, but more importantly learn how to learn.
- Artificial Intelligence is everywhere, possibility is that you are using it in one way or the other and you don't even know about it.
- Artificial Intelligence in education is revolutionizing the way students learn and teachers teach.
- AI tools offer personalized learning experiences, real-time feedback, and advanced analytics to enhance the education process. This presentation will explore the potential of AI in transforming the education landscape.

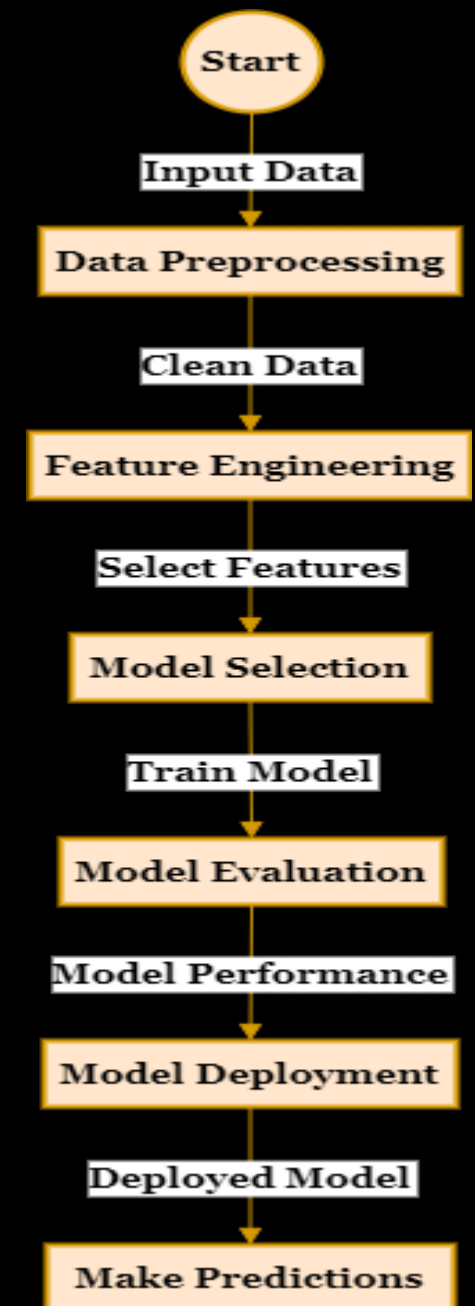

What is AI?

- An Intelligent Entity Created By humans
- Capable of Performing Tasks intelligently without being explicitly instructed.
- Capable of thinking and acting rationally and humanely.
- Artificial Intelligence, or AI, is when computers are programmed to do things that normally require human intelligence, like learning or making decisions.
- It's a way to make machines smart enough to think and act like humans for specific tasks, and it's used in many technologies today, from self-driving cars to voice assistants like Siri and Alexa.

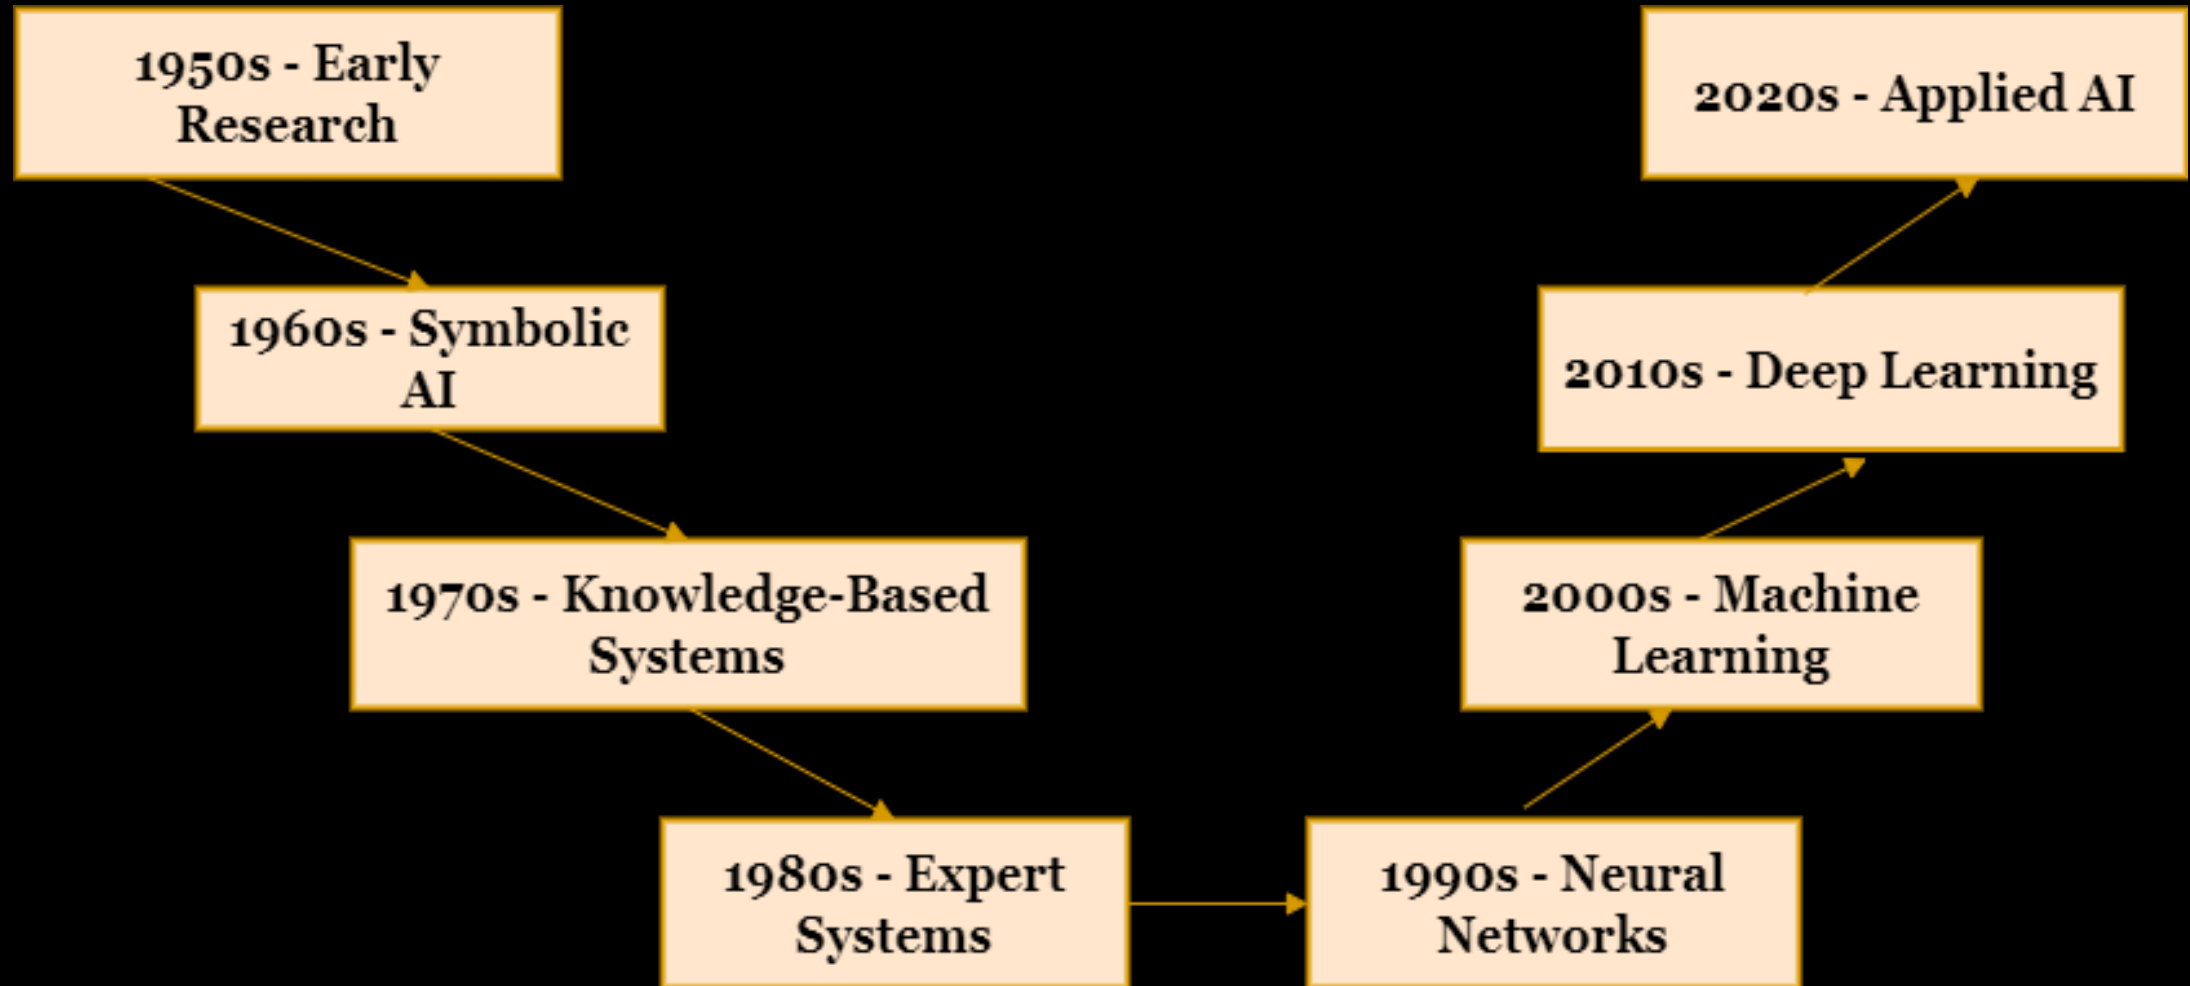

How does AI Work?

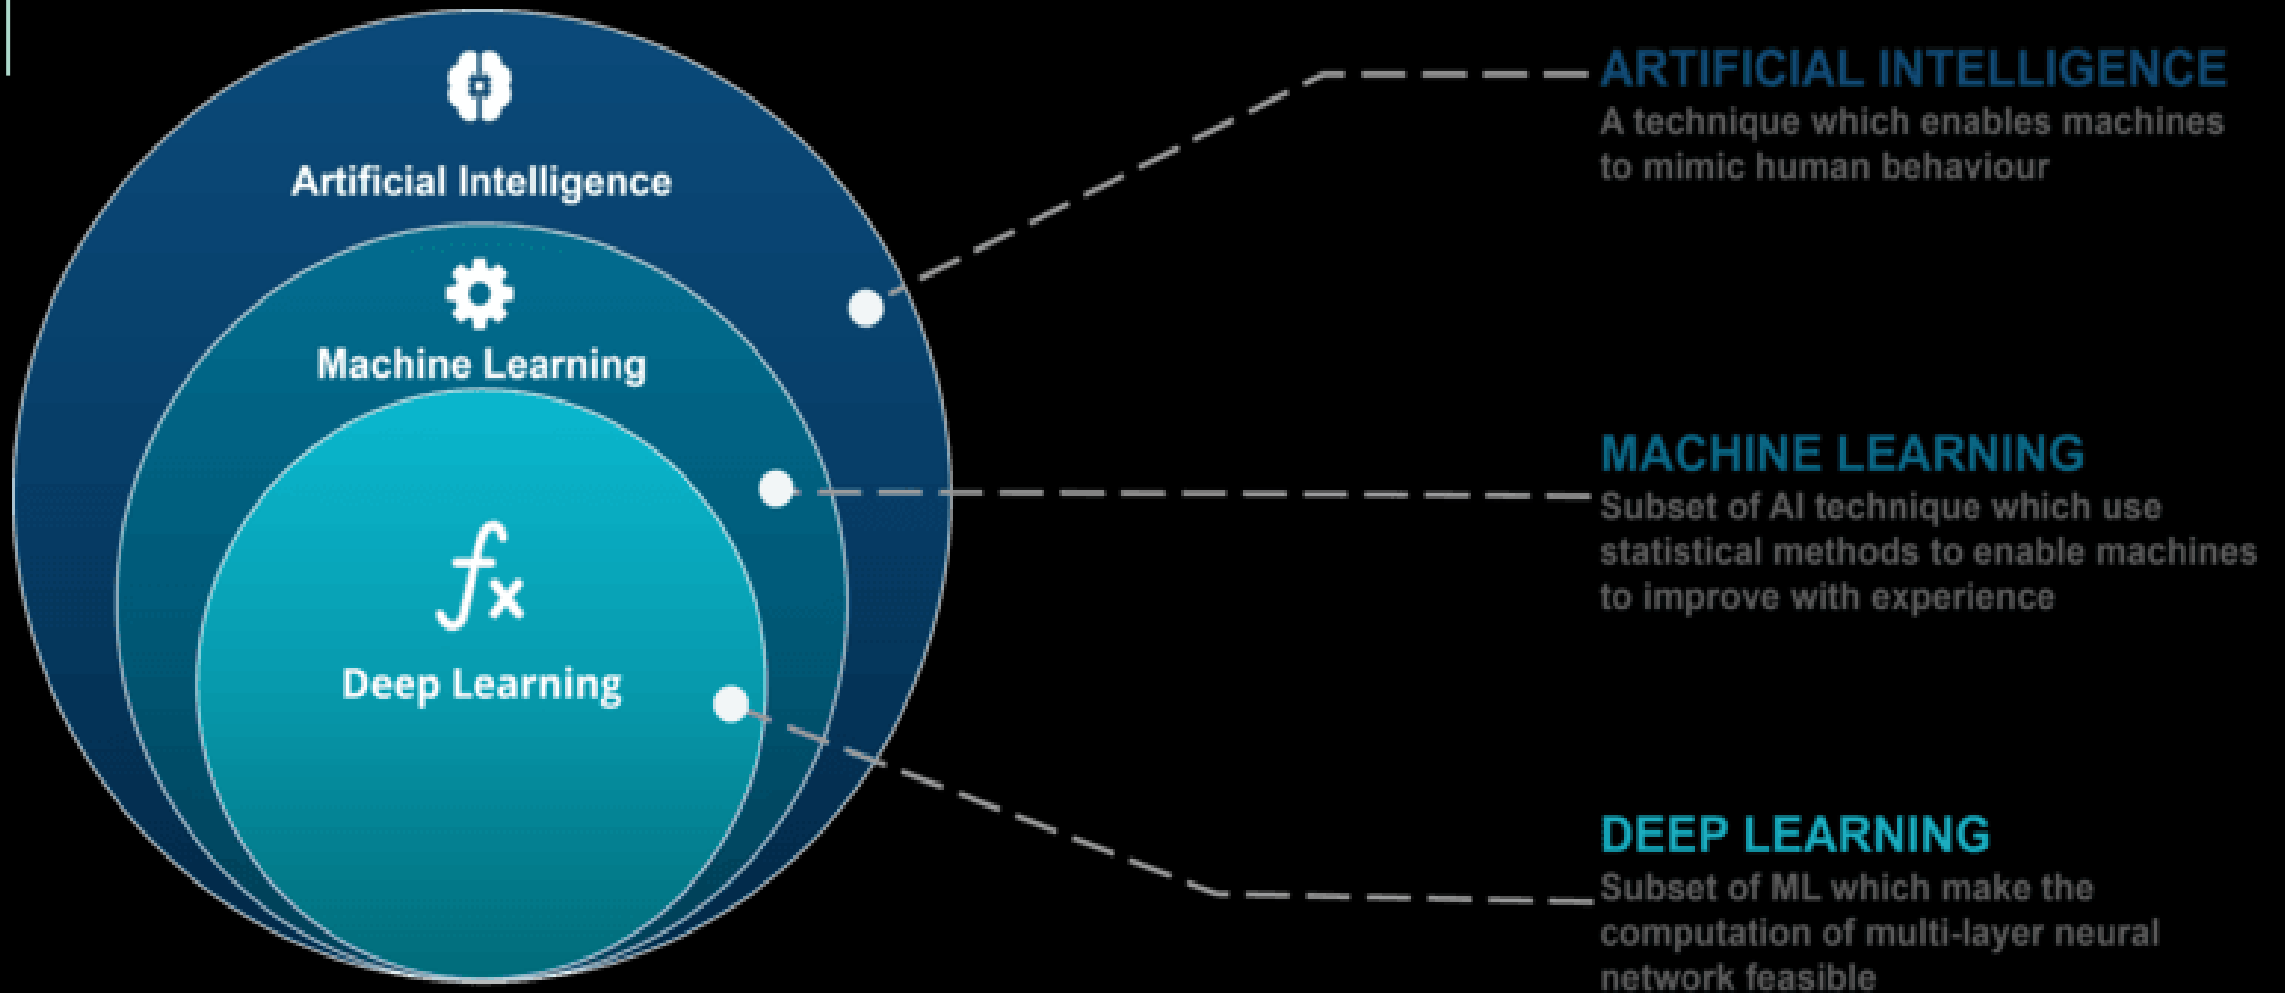

- Data Collection: AI systems gather large amounts of data from diverse sources.
- Data Processing: Algorithms analyze and extract patterns, correlations, and trends from the collected data.
- Algorithm Training: AI algorithms are trained using labeled (supervised) or unlabeled (unsupervised) data to learn patterns and make predictions.
- Decision Making: AI algorithms use processed data to make decisions or predictions.
- Feedback Loop: AI systems improve accuracy by continuously learning from new data and user interactions.

History of AI

AI, ML & DL

Machine Learning (ML)

- ML Algorithms analyze data, identify patterns, and make decisions or predictions.
- Examples include spam filters, recommendation systems, and predictive models.

Deep Learning

- Subset of ML inspired by the structure and function of the human brain's neural networks.
- Uses deep neural networks with many layers to learn from large amounts of data.
- Excels in tasks like image and speech recognition, natural language processing, and autonomous driving.

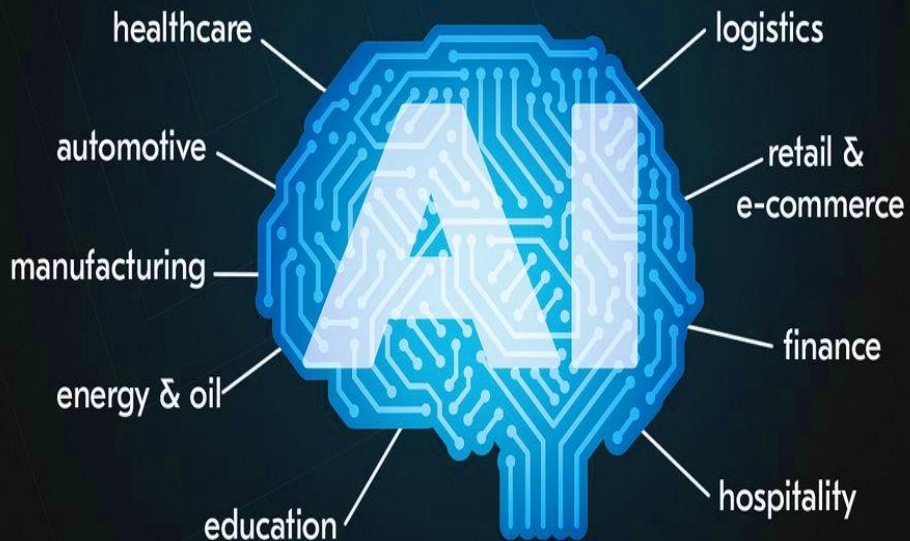

NLP & Computer Vision

- Natural language processing enables computers to comprehend, interpret, and generate human language, allowing seamless interaction between humans and machines.
- NLP enables the intelligent chatbots virtual assistants development that can engage in natural conversations and provide personalized assistance.
- Computer vision understand digital images and videos and involves techniques like image recognition, object detection, and facial analysis.
- Computer vision powers a wide range of applications, from self driving cars that can detect obstacles to medical imaging tools that can diagnose diseases.

AI Applications In Industries

AI Across Industries

Education

- testing and assessment
- flexible scheduling
- AI writing assistant

Manufacturing

- Robotics-enabled production systems
- Augmented Reality
- Internet of Things

Healthcare

- data analysis & mining
- pattern recognition
- AI-assisted treatment plans

Logistics

- handling requests
- feedback collection
- predictive analytics for data analysis

Banking

- customer service chatbots
- fraud detection
- preventing cyber-attacks

Transportation

- means to travel
- navigation systems
- autonomous vehicles

The Future of AI

- Increased automation of routine tasks across industries.
- Personalized healthcare through AI-driven diagnostics and treatment.
- Advancements in autonomous vehicles for safer transportation.
- AI-powered chatbots for enhanced customer service interactions.
- Customized education experiences with adaptive learning and tutoring.
- Augmentation of human capabilities in decision-making and creativity.
- Integration of AI with Internet of Things (IoT) devices for smarter environments.
- AI's impact across diverse sectors like finance, agriculture, and entertainment.

1

Building Trust

The working of AI lies on the technological side, a lot of which people do not trust and understand

2

AI Human Interface

With advancement of AI rising, businesses lack skilled professionals who can work with this technology

3

Investment

AI is an expensive technology that not every business owner or manager can invest money into

4

Software Malfunction

With machines & algorithms controlling AI, it is difficult to identify the cause of mistakes and malfunctions

5

Can Replace only Certain Tasks

Like any other technology, AI also has its own limitations; it simply cannot replace all tasks

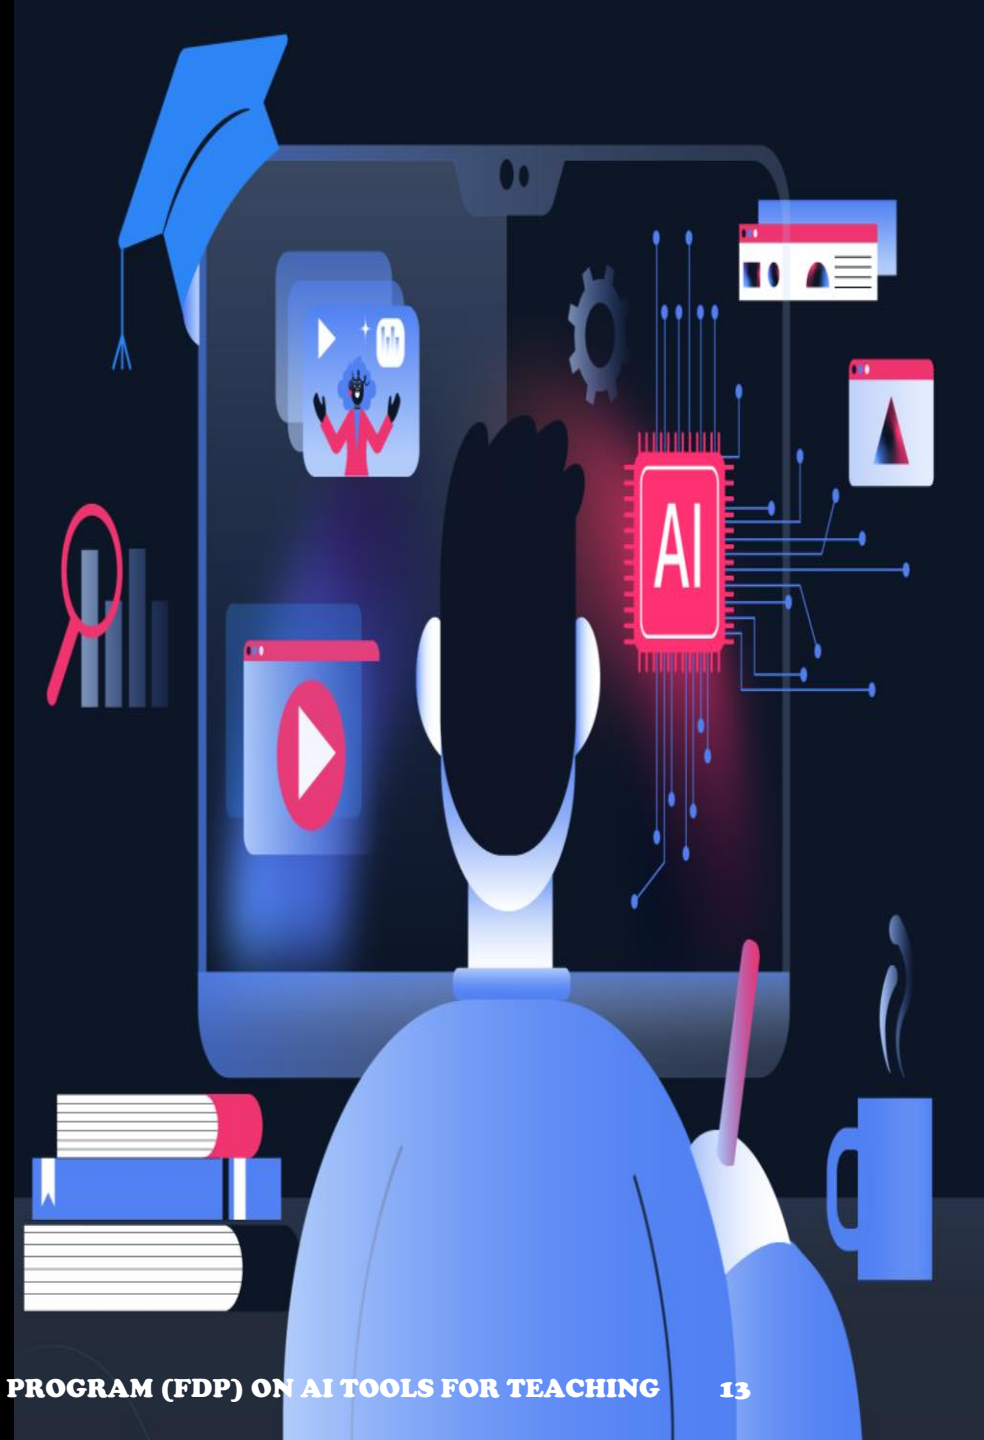

6

High Expectations

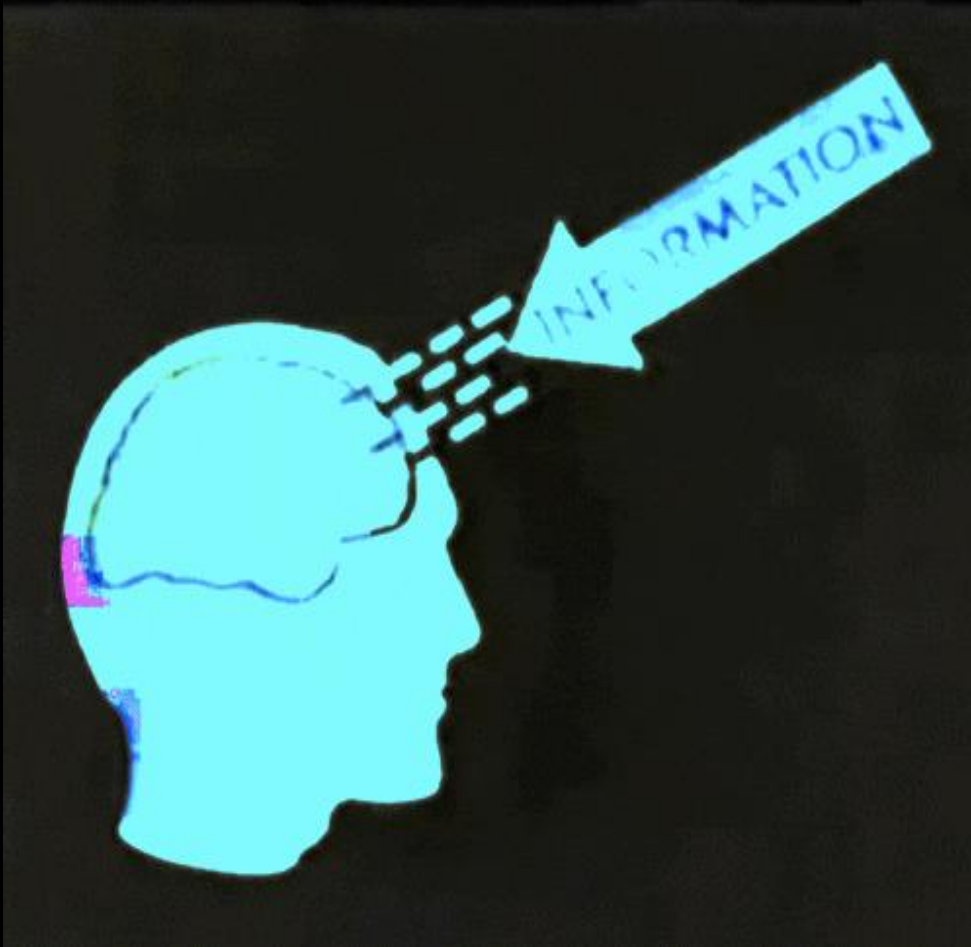

Not everyone understands the functioning of AI and might also have very high expectations of functioning

AI in Education

- AI is transforming the education landscape.
- From personalized learning to automated grading, AI powered tools are enhancing the teaching and learning experience for educators and students.
- AI customize learning experiences, track student progress, and offer adaptive tutoring and feedback.

AI Tools Enhancing Teaching

- Personalized Learning: Tailors content delivery based on student learning patterns.
- Automated Grading: Provides quick and accurate assessment of objective assignments.
- AI Tutoring: Offers virtual support and immediate feedback to students.
- Data Analytics: Analyzes educational data to improve teaching strategies.
- Collaborative Learning: Facilitates virtual collaboration among students.

AI Tools Enhancing Teaching

- Virtual Reality (VR) and Augmented Reality (AR): Creates immersive learning experiences.
- Natural Language Processing (NLP): Facilitates automated essay scoring and language translation.
- Instant Feedback: Provides real-time assessment and feedback on student work.
- Accessibility: Converts text to speech and offers real-time captioning for inclusivity.
- Administrative Support: Assists with scheduling and resource management.

AI-Powered Tutoring Systems

- Personalized Learning Paths: Tailors lessons and exercises based on individual student needs and learning styles.
- 24/7 Availability: Offers support outside traditional classroom hours, enhancing accessibility for students.
- Data-Driven Insights: Analyzes student performance data to identify strengths and weaknesses, aiding in targeted instruction.
- Continuous Improvement: Updates content and algorithms based on student interactions and feedback.

AI-Powered Tutoring Systems

- AI fosters a student-centric learning approach, placing the focus on individual student needs, preferences, and strengths.
- By tailoring education to the unique qualities of each student, AI promotes a more engaging and effective learning experience.
- Assists educators by providing data analytics and insights, enabling more personalized instruction.
- Bridges geographical barriers, connecting students with quality education regardless of location.

AI Tools for Teaching

- AI tools can serve as our own personal assistants: answering questions, helping us write text, create images, speak more effectively, and more.
- Most teachers would agree that they would be able to do more, if they had more time.
- Teachers can find AI tools that are ready to help them out right now. Lots of them are free or have "freemium" plans.

AI Tools for Teaching

The continuing development of generative artificial intelligence tools, capable of producing natural language, computer code, images, or other media in response to users' queries, has the potential to impact teaching and learning in many ways.

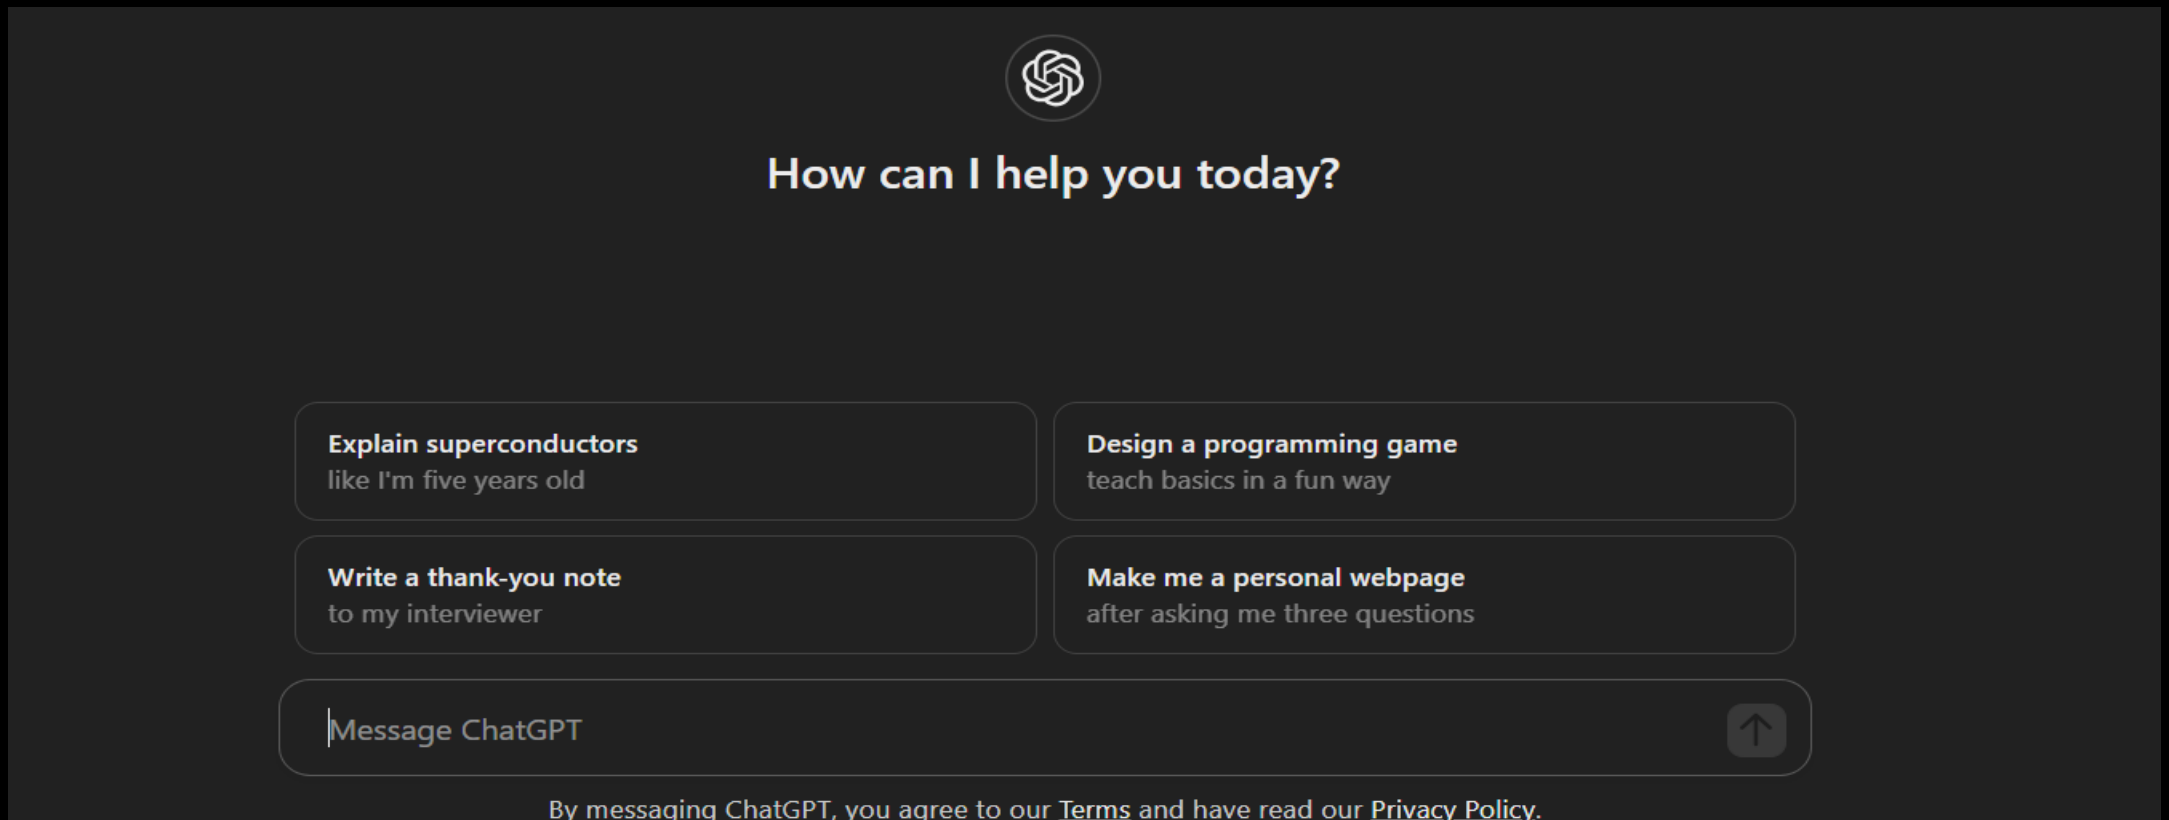

CONTENT WRITING

- AI tools like Grammarly enhance writing by checking grammar, spelling, and style.
- Copyscape ensures content originality.
- Hemingway Editor improves readability by highlighting complex sentences.
- Tools like QuillBot rewrite text while maintaining meaning.
- SEO-focused tools like SurferSEO and INK optimize content for search engines.
- AI tools like WordAI spin articles, maintaining original meaning.
- Writesonic and Jarvis generate content based on input prompts, aiding in content creation and SEO optimization.
- These tools collectively enhance productivity and writing quality.

COPY.AI/ CHATGPT

- Developed by Open AI, ChatGPT generate lesson plans by providing suggestions for activities, exercises, and topics to cover in class.

The screenshot shows the ChatGPT web interface. At the top is the OpenAI logo, a stylized knot. Below it is the text "How can I help you today?". Underneath this is a grid of four rounded rectangular buttons, each containing a prompt example. At the bottom of the grid is a text input field with the placeholder "Message ChatGPT" and a send button with an upward arrow. Below the input field is a line of text: "By messaging ChatGPT, you agree to our [Terms](#) and have read our [Privacy Policy](#)."

How can I help you today?

- Explain superconductors like I'm five years old
- Design a programming game teach basics in a fun way
- Write a thank-you note to my interviewer
- Make me a personal webpage after asking me three questions

By messaging ChatGPT, you agree to our [Terms](#) and have read our [Privacy Policy](#).

GRAMMARLY

- Helps with grammar, punctuation, style, and tone suggestions. It also offers plagiarism detection and readability analysis.

The screenshot shows the Grammarly website's sign-up page. At the top is the Grammarly logo and navigation links: Product, Work, Education, Pricing, Resources, Contact Sales, Log in, and a 'Get Grammarly It's free' button. The main headline reads 'Responsible AI that ensures your writing and reputation shine'. Below this is a paragraph about working with an AI writing partner. Two sign-up buttons are present: 'Sign up It's free →' and 'Sign up with Google'. A small disclaimer at the bottom states: 'By signing up, you agree to the Terms and Conditions and Privacy Policy. California residents, see our CA Privacy Notice.' On the right side, there is a simulated AI interface. It shows a draft of an email with the text: 'We're ready to move forward with the project plan once you take a look at the draft. Can you review the plan?'. Below this, a callout box highlights the underlined text with the message: 'Specify a deadline to review the plan. Show this change >'. A mouse cursor is pointing at the 'Show this change >' link. A small Grammarly 'G' icon and a pause button are visible in the bottom right corner of the simulated interface.

QUILLBOT

- A paraphrasing tool that can rewrite sentences, paragraphs, or articles while maintaining meaning and coherence.

The screenshot shows the QuillBot website interface. At the top left is the QuillBot logo. At the top right is a green button labeled 'Upgrade to Premium' and a user profile icon. The main heading reads 'Your complete writing solution'. Below this is a subheading 'Try a tool today. They're free!'. There are five tool cards: 'Paraphraser' (Increase fluency), 'Grammar Checker' (Fix mistakes), 'Plagiarism Checker' (Prevent plagiarism), 'AI Detector' (Analyze text), and 'Summarizer' (Summarize text). At the bottom, there is a section for 'QuillBot for Chrome' with a 4.5/5 star rating, 3.5M+ installs, and a green button to 'Add to Chrome. It's free!'.

TURNITIN

Turnitin is an advanced AI tool that helps teachers detect potential plagiarism in student work

The image shows the Turnitin website homepage. At the top is a navigation bar with the Turnitin logo, links for 'Why Turnitin', 'Products', 'Resources', 'Partners', 'Media Center', a search icon, a globe icon, 'Support', 'Contact Sales', and 'Log In'. The main content area features a large heading 'Advance learning with an AI writing detection solution built for educators'. Below this is a paragraph: 'Our advanced AI writing detection technology is highly reliable and proficient in distinguishing between AI- and human-written text and is specialized for student writing. What's more, it's integrated into your workflow for a seamless experience.' A 'Learn more' link with a right-pointing arrow is below the paragraph. To the right is a circular image of a woman with red hair and glasses working on a laptop. Overlaid on the image are several UI elements: a blue box with 'AI' and '37%' (likely representing a detection rate), a small inset showing a document with a highlighted section, and a network diagram with blue and green nodes and lines.

Copyscape/Duplichecker

- Used for checking plagiarism to ensure your content is original and not copied from elsewhere on the web

HEMINGWAY EDITOR

- Highlights complex sentences and common errors, helping to improve readability and clarity of your writing.

The screenshot shows the Hemingway Editor desktop application. At the top, a blue banner reads "Hemingway's classic desktop app. Save/load files and work offline. No AI. [Learn more](#)". Below this is a dark grey toolbar with the "Hemingway editor" logo on the left and buttons for "File", "Fix Grammar", "Rewrite", "Paragraph", "B", "I", and a link icon on the right. A "Menu" dropdown is also present. The main editing area has a dark background. On the left, a green button says "Fix Writing With AI" with an external link icon. Below it, a green dashed arrow points to the text "Hemingway Editor Plus Rewrites wordy sentences for you." in the center. The central text area contains the heading "Hemingway App makes your writing concise and correct." followed by a paragraph with yellow and red highlights. To the right of the text, there are buttons for "Write" and "Edit". Further right, a "Readability" section shows "Grade 8" and "Good." Below this, it says "Words: 185" and "Show more stats". At the bottom right, there are four colored boxes with feedback: a red box for "1 of 13 sentences is very hard to read.", an orange box for "1 of 13 sentences is hard to read.", a green box for "Find grammar and spelling issues with Editor Plus. Upgrade", a blue box for "2 weakeners. View details", and a purple box for "1 word with a simpler alternative".

Hemingway Editor Plus
Rewrites wordy sentences for you.

Hemingway App makes your writing concise and correct.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, convoluted logic—try editing this sentence to remove the red highlight.

You can **utilize** a simpler word instead of a purple one. Click on highlights to fix them.

Adverbs, passive voice, and other weakening phrases **are marked** in blue. **I believe** you should replace them with more forceful language.

Our Hemingway Editor Plus service uses AI to fix these highlights for you. It also features an advanced grammar checker that marks issues in green. It goes far beyond other grammar tools to catch even the trickiest errors. You can also change the tone or style of your writing by selecting text and using the "AI tools" button at the top.

To get started, paste in something you're working on and edit away. Or, click the Write button to hide highlights and compose something new.

TRIPURA UNIVERSITY

**Tripura University
(A Central University),
Suryamaninagar, Agartala
Pin-799 022, Tripura, INDIA**

OVERVIEW

The National Education Policy 2020 emphasizes the creation of motivated, energized, and capable faculty. The capacity building of the faculty at all levels has been one of the major thrust areas in the field of Higher Education. However, continuous professional development of faculty in all disciplines is required in light of new and updated methods of pedagogy. Keeping in view the optimal utilization of infrastructure, human and financial resources the Ministry of Education(MoE) has sought that synergy and integration between HRDCs and PMMMNMTT Centres be strengthened in order to meet the objective of NEP 2020 and the entire capacity building effort has been renamed and popularized as Malaviya Mission. The main objective of the new phase of the scheme is orientation and sensitization of the Faculty members of HEIs on core NEP 2020 Themes. The Malaviya Mission aims to provide quality teachers in Higher Education Institutions, attract talented people in the education sector and improve quality in teaching.

ABOUT TRIPURA UNIVERSITY

Taking into consideration the long cherished demands of the students community, growing aspirations of the people at large and also acknowledging the present and future needs of education in the state, the State Government took the initiative to pass the Tripura University Act in the Assembly in 1987 and the first University in the state came into being on 2nd October 1987. Later Tripura University has been converted to a Central University w.e.f. 2nd July, 2007 under the Tripura University Act, 2006 as enacted by the Parliament. At present there are forty four Departments and four Centres of Study in the University. As a conventional University, Tripura University has taken upon itself the responsibility to preserve and promote the enviable heritage of the state's indigenous art forms, folk, oral and multi-dimensional cultural traditions. In order to adapt with the demands of the changing times, the University is gradually changing over to e-governance for efficient, accurate and eco-friendly administration.

ABOUT MMTC, TU

Tripura University has established a Faculty Development Centre (FDC) under the Scheme of Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching (PMMMNTT) in December 2014. The FDC-TU understand that inculcation of both academic and professional skills are a requisite for any employee right at the beginning of his or her career, without which institutional efficiency and proper work ethics cannot be developed in any establishment. The Centre has conducted many program on these aspects and outcome of all earlier programmes were excellent. Recently the name of this centre has been changed to Malaviya Mission Teacher Training Centre, Tripura University (MMTC-TU). At present, the Centre is engaged in training faculties and officials of Higher Educational Institutions to build competencies in them for better teaching, learning and research, enhancing and updating their knowledge and skills in order to provide more effective teaching, administration and aligning them with the societal needs of NEP 2020 within the purview of Indian values and value system.

About us

Holy Cross College is a private English medium institution of higher learning, established by the Holy Cross Education Foundation. The college became the first College in Tripura to be accredited with 'A+' Grade by National Assessment and Accreditation Council (NAAC). We are committed to ensure that both formation and transformation are earnestly framed and focused. It was the goal that the Blessed Basil Antony Mary Moreau, the founder of the Holy Cross Congregation, had in mind when he used the phrase "Educating Heart and Mind" hundreds of years ago. Here, as a family of Holy Cross, our goal is to protect and guarantee that the founder's vision is realised.
