RJHCCA: A MULTIDISCIPLINARY PEER-REVIEWED JOURNAL

CALL FOR PAPERS

Greetings ! !
RJHCCA as an Open-Access Multi-disciplinary Research Journal welcomes research scholars and faculty members from diverse domains to contribute research articles and manuscripts for publication.

Each Call for Papers published becomes another success story of its commitment to the progress of industry, social infrastructure, and scientific research through the integration of scientific researchers and industry practitioners.

Articles published in RJHCCA are peer-reviewed by one or more members of the Board of Editors or an outside scholar who is a specialist in the related field. Therefore, we evaluate every article before we accept any for publications.

INSTRUCTIONS TO THE AUTHOR/S

- Author/s must include their complete address including institutional affiliation and e-mail address on the first page of the article.
- Authors must give the declaration as to the authenticity of the work that they submit. This declaration should state that work submitted for publication in RJHCCA is an original work and that the author/s have duly acknowledged the work or works of others either cited or used in writing the articles, etc. A sample is provided below for reference :

  > This is to certify that the work submitted for publication RJHCCA is an original work by me/us based on my/our research. That I/we have duly acknowledged in the said paper the work or works of others which I/we have consulted in writing this article and that I/we have duly cited all such work/s in the text as well as in the list of references.

- Authors are requested to kindly review their work in the light of the required declaration given above, before they submit their work for publication in RJHCCA. They are wholly responsible for any plagiarism identified in their works.
- RJHCCA will not and does not shoulder any accountability for the acts of plagiarism committed by the authors.
- If at any stage RJHCCA receives any complaint with evidence that the work is plagiarized or that the paper does not cite sources adequately but gives the impression that the ideas and the content used are from other sources, RJHCCA will immediately delete the paper and then it is up to the author to make changes suitably and add a certificate of originality to the work.
- RJHCCA does not accept articles written by Artificial Intelligence (AI). If the work of AI is included in work, authors are requested to include a declaration stating how and why it has been included.
