Meeting Minutes:

During the department meeting held on August 27, 2024, a three-year plan for the department was discussed.

A tentative plan was made focusing on improving the department's effectiveness and enhancing students' academic performance. It was decided that one national or international seminar would be organized in the upcoming even semester of 2024-25 session. Additionally, each semester over the next three years will feature special lectures and workshops.

Workshops on specialized topics, such as Research Methodology, will be conducted during the odd semester of 2025-2026 session, as the students of the first NEP-2020 batch will be in their 3rd year (5th semester). This schedule will be maintained for all future 5th semester students to familiarize them with and equip them with the skills needed to conduct research in their subsequent semesters.

It has been planned to introduce new initiatives each semester while aligning with the curriculum. Various activities are planned to meet students' needs according to their semester, including the continuation of courses like Bridge courses and Add-on courses. Activities such as surveys, experiential learning, study tours, internships, and alumni-focused initiatives etc. If needed more activities will be added as per the requirements in the future.
