Subject: Requesting for Study Trip cum Lab Visit to BPT as a part of experiential learning.

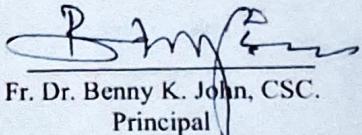

Respected Father,

This is to inform you that Dept of Human Physiology is going to organize a Study Trip cum Lab Visit for the Human Physiology Hons, students of 6<sup>th</sup> semesters on 20<sup>th</sup> June, 2025. In this regard, we are proposing the name of the Bharat Pharmaceutical Technology (BPT) utilizing the benefits of MoU with us. Through this, the student will get some exposure to different laboratory equipment, and they will be able to observe new experiments going on continuously in the BPT, as a part of the experiential learning. May we request you to provide the transport facility for approx. 37 numbers of students and faculties of the department.

With best regards.

### **Report on Educational Visit to Bharat Pharmaceutical Technology, Amtali**

Date: 20th June 2025

Total Number of Participants: 24

An educational visit was organized to Bharat Pharmaceutical Technology, Amtali on 20th June 2025 by the Department of Human Physiology. The objective of the visit was to provide students with practical exposure to pharmaceutical manufacturing and to bridge the gap between theoretical knowledge and industrial practices.

#### **Objectives of the Visit:**

1. To observe the pharmaceutical manufacturing process.
2. To understand quality control and assurance methods.
3. To learn about good manufacturing practices.
4. To explore career opportunities in the pharmaceutical industry.

#### **Description of the Visit:**

The visit began with an introductory session where the officials of Bharat Pharmaceutical Technology explained the products and their role in healthcare.

The students were given a guided tour of the production units, including:

1. Tablet manufacturing section.
2. Packaging and labeling unit.
3. Quality control laboratory.
4. Pharmacology laboratory.

An interactive session was conducted where students' queries regarding formulations, testing, and regulatory standards were addressed.

#### **Observations:**

1. Large-scale production requires strict compliance with safety and quality standards.
2. Automation and modern equipment play a major role in pharmaceutical manufacturing.
3. Quality control is essential to ensure the effectiveness and safety of medicines.
4. The pharmaceutical sector offers diverse career opportunities for students.

#### **Conclusion:**

The visit to Bharat Pharmaceutical Technology, Amtali was highly informative and beneficial for the students of Holy Cross College. It provided valuable insights into real-

world industrial operations and enriched the students' understanding of pharmaceutical science. We sincerely thank the management of Bharat Pharmaceutical Technology and our college authorities for this opportunity.
